Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:

Jones et al. [Jones], U.S. Patent No. 4,750,112, discloses a data processing system including a dual pipeline, an instruction pipeline (IP) and an execution pipeline (EP), for executing program instructions. These two pipelines are operated in parallel manner under normal condition. However, under exception conditions, and under controlled of a control unit, one of the pipelines can operate while the other is halted.

Ohtsuka et al. [Ohtsuka], U.S. Patent No. 5,297,263, discloses a microprocessor having a plurality of pipelined stages. When an occurrence of an exception code is detected at a given stage, the given stage is temporarily stopped. The exception code is then transferred to a special stage for execution.

Applicant's claimed invention distinguishes over the prior art for the following reasons. The claims are allowable over the prior art of record because none of the references, either alone or in combination, discloses or renders obvious the method for processing electronic data comprising, among other steps, the steps of generating, in response to one or more incoming control signals, at least one clock control signal having respective assertion and de-assertion states related to said one or more incoming control signal assertion and de-assertion states with said respective assertion states following said first incoming control signal states combination; generating, in response to said at least one clock control signal, at least a first clock signal having active and inactive states corresponding to said at least one clock control signal de-assertion and

assertion states, respectively; and selectively operating, in response to said first clock signal, on one or more instructions for data processing by executing, with a second portion of a pipeline subcircuitry in response to said active first clock signal, one or more instructions decoded by a first portion of pipeline subcircuitry.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
